when you buy any RCA Black & White 19" diagonal Television

$149

RCA's "take-along" Black & White TV with 2-way AC/DC operation

Two-way AC/DC operation: Plays off AC house current or 12-volt cigarette lighter socket (lighter power cord included).

Cigarette lighter power cord

12-volt DC power cord plugs into cigarette lighter socket in car or camper.

Removable tinted sunshield

Removable tinted sunshield improves indoor or outdoor viewing in bright light.

Optional long-range antenna. Designed to bring in many stations that may not be received by the set's built-in antenna. Clamps easily to car window. Ten-foot leads attach to set's external antenna terminals.

Sportable TV

100% solid state Sportable chassis

RCA's advanced black and white TV chassis. Durable circuit board construction provides excellent reliability and long life. 100% solid state components run cool and use very little energy. Result: efficient, high-level performance plus longer life expectancy than with previous RCA black and white chassis. **Chassis voltage:** 19,000 volts.*

Fast warm-up picture tube

Fast warm-up picture tube delivers a sharp, bright, high-contrast picture about six seconds after set is turned on.

Automatic Gain Control (AGC) and three-stage I.F. amplification combine to help deliver a clear, steady picture. They automatically compensate for weak or strong channels and signal fading.

Special "spotkiller" circuit protects phosphor coating on the picture tube from burn damage when the set is turned off.

Automatic "blanking" circuits help assure high picture quality by minimizing annoying diagonal lines on the screen.

RCA's advanced New Vista 200 VHF tuner

100% solid state VHF tuner is engineered to provide excellent reception, even in weak or fringe signal areas. It features self-cleaning tuning elements plus fewer critical contact points than conventional wafer-type tuners. This reduces the likelihood of service calls due to dirt and dust accumulation.

Solid state UHF tuner has a convenient click position for each channel.

Low power consumption

Interference protection circuitry helps minimize picture disturbances from power lines, electrical appliances and aircraft.

Simplified servicing. Most chassis circuitry is contained on two circuit boards which are clearly labeled and coded to help the service technician find any trouble spot quickly. All circuitry is readily accessible for servicing without removing chassis from the set.

Deluxe tuning features

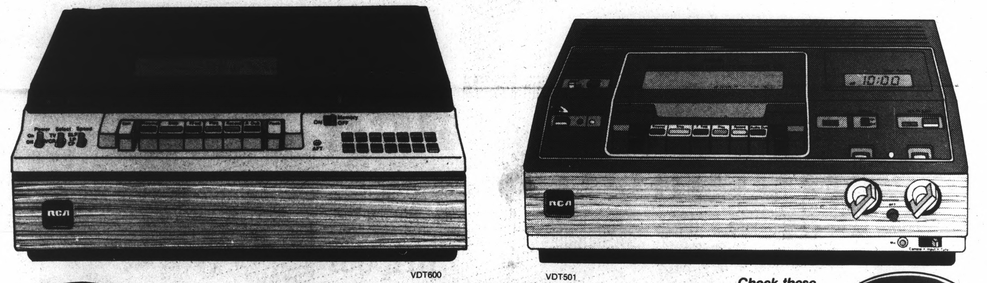
One-set VHF fine tuning electronically "remembers" the initial setting selected for each channel. Seldom needs readjustment.

Front-mounted controls. For easy tuning convenience. Contrast, Brightness and Volume controls are all located on the front of the set.

VB SPECIALS VALUE BONUS

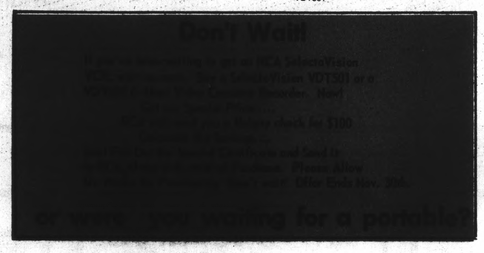
Announcing the RCA SelectaVision $100 Rebate

Special Introductory Offer!
Buy a new 6-HOUR RCA SelectaVision Video Cassette Recorder now and get a $100 rebate direct from RCA.



Pre-set it to record 4 TV shows over a 7-day period

An amazing microprocessor combines with a special electronic timer to let you program TV shows up to a week in advance. Pre-set it to record as many as four different programs on different channels, even on different days. Or record the same program automatically every day. All for *up to six hours* on a single video cassette.



Check these deluxe features:

Built-in digital clock/timer
Lets you pre-set recorder up to 24 hours in advance to tape programs when you're not around.

Remote pause control
Has 20-ft. cord for convenient chairside use. Stops and restarts tape so you can edit out unwanted material.

Tape counter with memory switch
Makes it easy to find the start of a program.

Catch the action wherever you go... with RCA's new SelectaVision portable VCR system

$100 Rebate does not Apply to RCA portable VCR

RCA VDP150 Video Cassette Recorder has a built-in rechargeable battery so you can tape outdoors, indoors—anywhere.

You can record from the cigarette lighter socket in your car or camper, using optional DC power cord.

You can record indoors on AC house current, using optional AC Adapter Charger.

VDP150 Portable Video Cassette Recorder
Designed for mobility—weighs just 14.7 lbs. Battery provides up to 1½ hours recording time on a single charge when used with RCA's CC003 color camera. (Shoulder strap optional.)

CC003 Video/Sound Color Camera
Features 4:1 power zoom lens, boom microphone, thru-the-lens viewfinder. Weighs only 4½ lbs.

Play it back on your TV—complete with sound!
Just rewind the tape you've shot and it's ready for viewing. No processing or projection equipment needed. And video tapes are erasable—you can use them again and again.

PDP500 AC Adapter/Charger
Recharges recorder's battery—and lets you operate recorder on AC house current (up to 4 hours recording on one cassette).

Also available: VDP 1000 Tuner-Timer module for Off-Air Recording.
